EXPLANATION

TRANSFER ELIGIBILITY WORKSHEET

CALHR 880 (Rev. 01/2017)

Per Government Code Section 18525.3. "Transfer" means both of the following:

　　　(a) The appointment of an employee to another position in the same class but under another appointing power.

　　　(b) The appointment of an employee to a position in a different class that has substantially the same level of duties, responsibility, and salary, as determined by board rule, under the same or another appointing authority.

How to apply Rule 430 - Transfers between classes must involve substantially the same levels of duties, responsibility, and salary

1. "Substantially the same salary" is defined by SPB Rule 431. The salary range of the class "to" which the employee is transferring must be exactly the same or lower than the class "from" which transferring; or the class salary "to" which the employee is transferring is less than two salary steps.

2. Rule 430 allows transfers between closely related classes in terms of level of duties and responsibilities. Level of duties and responsibilities are defined by the type and scope of work. In order to determine the level of duties and responsibilities, you must compare each class specification side-by-side. This helps to ensure a clear transfer determination.

The following parts of the class specifications should be evaluated and compared:

* Definition/ Definition of Levels/ Definition of Series
* Scope
* Typical Tasks
* Minimum Qualifications
* Knowledge, Skills, and Abilities
