**Semi-Annual**

**Strategic Plan Progress Report**

**January 2015 – June 2015**

July 2015

## A MESSAGE FROM THE DIRECTOR

More than a year ago, CalHR adopted a Strategic Plan which laid out a five-year road map for our department to become the premier leader and trusted partner in innovative human resources management.

Our Strategic Plan was created and implemented with the goal of setting CalHR's course through 2018. However, the landscape has changed considerably since its adoption in June 2014.

Earlier this year the state introduced the Civil Service Improvement (CSI) effort, which will profoundly transform California's strategy to recruit and develop its workforce. The goal is to produce a modernized and effective civil service system for decades to come. With the broad scope of that the CSI encompasses, including various state departments and outside stakeholders, it also incorporates many of the same objectives as our Strategic Plan. CSI also encompasses other reform and modernization efforts such as our ongoing Examination and Certification Online System (ECOS) and our Joint Project with the State Personnel Board and the Department of Rehabilitation to increase and improve the hiring, promotion and retention of persons with disabilities.

To ensure our Strategic Plan remains effective and relevant, we began a refresh process that will make our Strategic Plan more flexible and conducive to the CSI efforts. We have learned a great deal about being a cohesive organization that works together to better serve our customers. We look forward to continuing that in the broader context of CSI.

CalHR has brought our Strategic Plan to life and provided new energy to the department and the Human Resources community within state service. This report captures that progress and provides important information on how we will adapt and keep improving.

The June 2015 Strategic Plan Progress Report provides more detailed information about the progress made on each of the six strategic goals, as well as the many associated objectives and initiatives.

## Overall Progress of Five-Year Strategic Plan

We begin the update with an overview of the progress made on each of the strategic plan goals. We measure progress on a strategic goal by determining how much work was accomplished on the objectives associated with the particular goal, as illustrated in the following charts:

**Goal 1**

 ■ 21.1% Current Reporting Period  
 ■ 56.1% Total Progress to Date

As shown, we made progress on all six of our goals with an 18 percent average increase in completion for this reporting period. We are 65 percent, or more, complete on five of our six goals; Goal 3 and Goal 5 are each more than 75 percent complete. Goal 2, is at 20.3 percent complete and on schedule. Objectives and Initiatives under Goal 2 were designed as long-term projects that are projected for completion in the final year of the Strategic Plan.

## Accomplishments and Challenges

Over this reporting period CalHR has produced many accomplishments and encountered some challenges.

The Personnel Management Division (PMD) made steady progress on several of its goals and initiatives. Our effort to abolish job classifications that have not been used for at least 24 months has resulted in the abolishment 483 classifications, 300 of which were abolished during this reporting period. PMD also trained an additional 150 human resources professionals, bringing the total to 500, who represent 123 departments selected for delegation of Career Executive Assignment (CEA) level and salary determinations, exceptional position allocations and unlawful appointment investigations. Through leading a cross-divisional team PMD also launched a new search function for policy memos on the CalHR website and initiated a review of existing policy memos. This review will determine whether policy memos are still an active policy, outdated policy or appropriate for archiving.

The Office of Civil Rights' (OCR) notable accomplishments include progress in the CalHR, State Personnel Board (SPB), and Department of Rehabilitation Joint Project on Persons with Disabilities in State Service. Workgroup teams comprised of community groups and other state departments analyzed the processes that persons with disabilities in state service go through; from the application process through hiring, training, promotion until retirement. Through this analysis, challenges and employment barriers for persons with disabilities seeking civil service jobs were identified and recommendations to remedy them are under development. Joint Project participants include the Department of General Services, Department of Technology, the Association of California State Employees with Disabilities, California Committee on Employment of People with Disabilities, Coalition of State Civil Rights Associations & Organizations, California Civil Rights Officers Council, Service Employees International Union and Statewide Disability Advisory Council.

The Labor Relations Division made great headway in a series of initiatives designed to foster increased communication and knowledge transfer for the departmental labor relations officers statewide. This includes making union contracts on the CalHR website searchable and accessible and developing a mentorship program for members of the state labor relations community.

The Workforce Development Programs and Special Projects Division made big strides and completed a statewide training needs assessment and, as a result, added 11 new classes to the 2015-16 training calendar. The division is also developing other course offerings to meet the needs identified in the assessment.

The Selection Division, working closely with the Information Technology Division, has made significant progress toward re-engineering the exam process to be accessible, timely and modernized. This includes improving our current online exam testing process to be more user-

friendly and accessible for applicants. The modernization of the exam process is closely linked to our Examination and Certification Online System Project.

Along with our great accomplishments we have also faced challenges. Through the pressures and challenges that come along with unanticipated workload and project reprioritizations, CalHR demonstrated great flexibility and resourcefulness. We are currently refreshing our Strategic Plan to better meet our customers' needs and align with the new Civil Service Improvement (CSI) priorities. We adapt to manage our challenges in order to succeed and ensure we become the premier leader and trusted partner in innovative human resources management.

## Looking Forward

This progress report is part of a series of semi-annual reports we will continue building to track and share our performance information with our stakeholders. While our goal and commitment will remain concentrated on our five-year Strategic Plan, we will be refreshing our plan in the coming months to optimize our ability to work closely with other departments and stakeholders as part of a statewide Civil Service Improvement effort.

Our Strategic Plan and each of the progress reports can be found on the CalHR website at <http://www.calhr.ca.gov/Pages/calhr-strategic-plan-2014-2018.aspx>.
