

FSA Letter of Medical Necessity

Under Internal Revenue Service (IRS) rules, some health care services and products are only eligible for reimbursement from your Health Care Flexible Spending Account (HCFSA) when your doctor or other licensed health care provider certifies that they are medically necessary. Your provider must indicate your (or your spouse's or dependent's) specific diagnosis, the specific treatment needed, and how this treatment will alleviate your medical condition.

ASI has developed this letter to assist you and your health care provider in providing the information we need in order to process your claim. Your provider can also submit a statement on his or her letterhead, as long as the letter includes all of the information on this form.

You only need to submit this submission form, or your provider's letter containing the same information, with the first claim you submit for the service or product. ASI will make a notation on your record of the allowable item(s) and the date on the letter. *The letter will be valid for expenses incurred for one year from the date on the letter. At the end of one year, a new letter will be required.*

Note: ASI's role is to ensure that the proper documentation is submitted for reimbursement under your FSA plan, and not to determine whether the treatment prescribed by your health provider is medically necessary. ASI will review this letter of medical necessity for completeness only.
