

How to find a California law on-line:

Because laws change frequently, you should always double check the statute online. The following are instructions for you to find a code section from a website operated by the California Legislature that is always up to date:

1. To start, click on or copy the highlighted link below into your web browser address bar. **<http://leginfo.legislature.ca.gov/faces/codes.xhtml>**

2. When you get to that page, there are 29 codes that you can access. Simply check the box of the appropriate code and then enter the number of the section you want to access in the search box below the listed codes. All of the codes we reference in the Online Supervisor's Guide to Addressing Poor Performance are in the Government Code.

CALIFORNIA LAW

California Law consists of 29 codes, covering various subject areas, the [State Constitution](#) and [Statutes](#). Information presented reflects laws currently in effect. All California Codes have been updated to include the 2011 Statutes.

To display the Table of Contents for a code, select a code and click on Search.
