CRITERIA	
•	For the classifications listed above, the above rates are effective 04/01/07 for R16, S16, M16; and 07/01/07 for R19 and S19.
•	Application of these rates will end on 03/31/08 for R16 and S16; 03/31/08 or 03/31/09 for M16; 06/30/08 or 06/30/09 for R19 and S19.
•	This differential shall not be subject to the compliant and/or grievance and arbitration processes.
•	Effective 04/01/08 when the pay differential is reduced, the difference between the 04/01/07 pay differential rate and the 04/01/08 pay differential rate shall be rolled into the employee's base pay.
•	Effective 07/01/08 when the pay differential is reduced, the difference between the 07/01/07 pay differential rate and the 07/01/08 pay differential rate shall be rolled into the employee's base pay.
•	Employees will retain their constant differential rate when moving between salary ranges within a classification and upon movement to any other classification covered by this staged PERS differential until their end date. The employee will not receive Pay Differential 373 rate of the "to" class.
•	If an employee is due an MSA while one of the above pay differentials is in effect, it will be necessary to process a SAL effective the same date. This is necessary because the employee should receive the MSA increase on the base pay plus the above pay differential amount but the pay differential amount can not change. The SAL base pay rate will be computed by adding the base pay and the above pay differential then computing the MSA increase and then subtracting the pay differential amount for new base pay. Or use the Excel Program provided by DPA to compute the SAL base salary rate that is effective the same date as the MSA.
