GENERAL INSTRUCTIONS FOR
SECTION 1

- A. Salaries for individuals hired under Section I of this authorization are a "plus" adjustment and will be shown as the base salary and a "plus" adjustment on the appointment documents. Base salary is the step of in the salary range which the employee is entitled by applying the appropriate salary regulations. As examples, the rate for Auditor I would be shown as \$1692 plus \$71; the rate for Bank Examiner I would be shown as \$1763 plus \$79.
- B. The "plus" adjustment under this authorization is continued as employees receive merit salary adjustments. The "plus" is adjusted to equal the next step in the salary range not to exceed the maximum step of the range. Anniversary dates are retained.
- C. Special in-grade salary increases for incumbents of classes in Sections 1 are not allowed.
- D. Any present employees in these classes who, upon the effective date of this authorization, are located in geographical areas defined in the above sections and who are receiving salaries lower than the "plus" adjustment as new employees may receive the same salaries as new employees. New anniversary dates shall be established for employees receiving such adjustments.
- E. The "plus" adjustment granted for a local recruitment difficulty is for that location only. If the employee leaves the area approved for a "plus", the "plus" is cancelled or revised. If the employee transfers to another locality which has a "plus" authorization, the employee may receive the same "plus" adjustment as received by incumbents with comparable service in the new location. For employees transferring to areas where a "plus" adjustment is not authorized, salary and anniversary dates should be adjusted to reflect the salary and anniversary dates of incumbents with comparable service in the new location. This should be explained to all employees receiving a "plus" adjustment.
- F. When computing the salary for an employee who moves to another class with a higher salary range, use the combined salary rate (base salary and "plus") to compute the new appointment rate. On such a move, a new "plus" adjustment is not authorized except when the new class has an authorized HAM and the promotional rate is less than the authorized HAM rate.
- G. When computing the salary for an employee who moves by appointment from an employment list or as a result of Board action to a class with substantially the same salary range, use the employee's combined salary rate (base salary and "plus") to compute the appointment rate.
- H. When computing the salary for an employee who moves to a class with substantially the same or a lower salary range other than by appointment from an employment list, use the employee's base salary rate to compute the appointment rate. If the employee has served for a minimum of two (2) years in the FROM class use the employee's combined salary rate (base salary and "plus") to compute the appointment rate.

- I. Alternate range movement for a class receiving a hiring above the minimum will be from the base under the alternate range criteria except that the "plus" is retained if it is authorized for the range of the class to which the employee is moving.
- J. The salary rate paid to employees who are reinstating after separation from a class authorized a "plus" salary adjustment is determined by Rule 599.677. Generally, employees should be rehired under the hiring-above-minimum authorizations in effect at the time of rehire. However, reinstated employees may be hired at a rate equivalent to the rate they last received, adjusted for any salary range changes which occurred during the period of separation. Departments using their discretionary authority should consider the employee's value to the State and equity among employees in the class.
