The International Union of Operating Engineers (IUOE) and the State of California have worked together for over 20 years through a Joint Apprenticeship Committee to promote training opportunities in the stationary engineer occupation.

The Unit 13 Stationary Engineer Joint Apprenticeship Committee has successfully trained and graduated several hundred apprentices to become successful journey level engineers since 1981. In addition to the apprenticeship program, Locals 39 and 501 have journeyman upgrade training courses available through their training programs. Many of these courses are available at no expense to the State employer. If you are interested in either the stationary engineer apprenticeship program or journeyman upgrade training information, please contact:

Jim Maple  
Apprenticeship Training  
Coordinator  
Local 39
