Chris Dainard, Chief Selection Division

Crystal Mar, Assistant Chief Selection Division, HRIS

Chris Rouse, Chief Technology Officer Information Technology Division

Agenda

WHAT IS ECOS?

A WALK DOWN MEMORY LANE

THE CURRENT STATE

ROADMAP TO THE FUTURE

WAYS TO STAY CONNECTED

Q&A

-

What Is ECOS?

Examination and Certification Online System

Built by State employees for State employees

Cloud-based and real-time processing

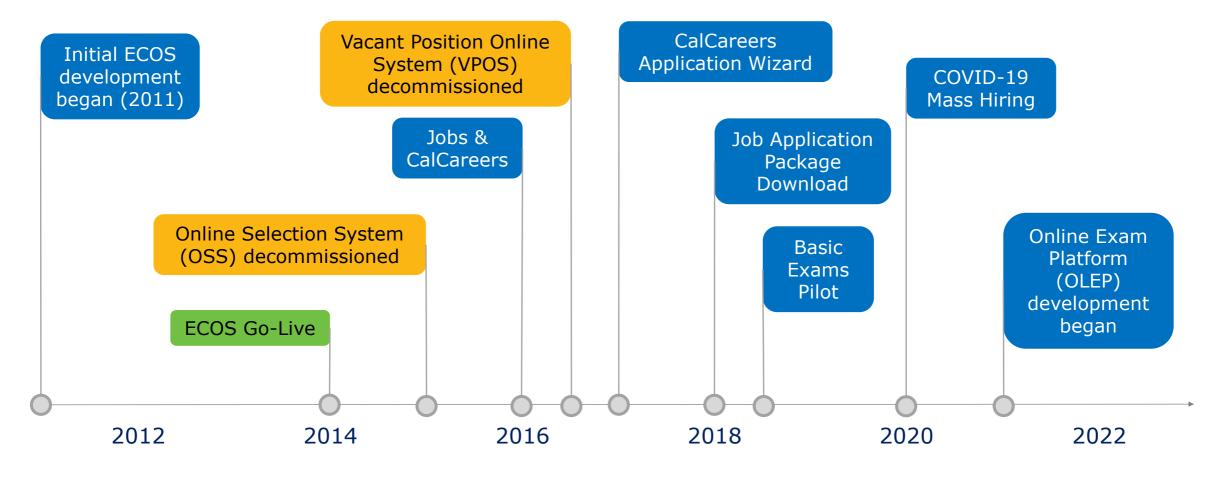

Administrative side of CalCareers.ca.gov

State's Applicant Tracking System (ATS)

Maintains exams, job postings, and certification lists

ECOS Timeline (1/2)

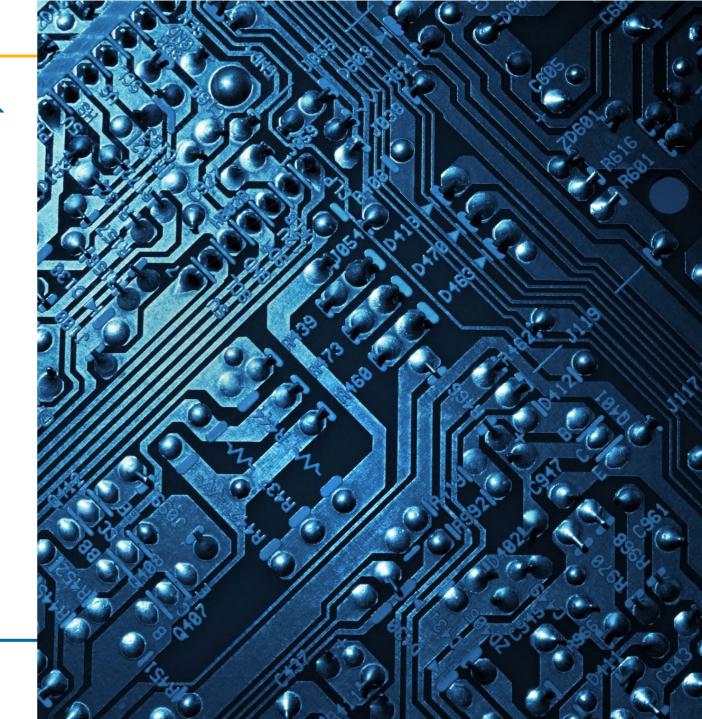

ECOS Timeline (2/2)

System Development & Enhancements

- Since 2017, over 5,700 work items have been created for system development and enhancements.
- Four old systems have been decommissioned:
 - Online Selection System (OSS)
 - Vacancy Position Online System (VPOS)
 - Legacy Exam Mainframe System (SPBPROD)
 - CalCareers Phone System

The Current State (Stats)

Over 1,500,000 applications received each year

Average of 50,000 job postings each year

Average of 4,200 jobs posted each month

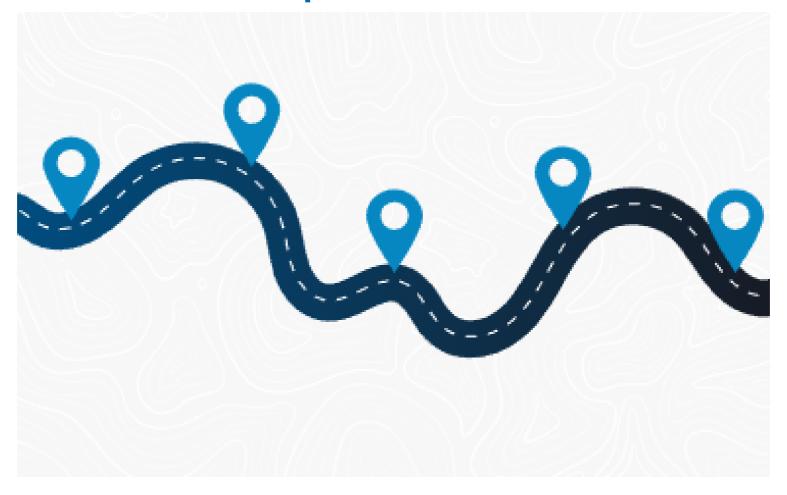

Nine systems/workflows consolidated into one

4,500 tickets resolved (system improvements)

Roadmap to the Future

Roadmap to the Future (2026)

Anonymous Hiring

ECOS Mass Download of Applications

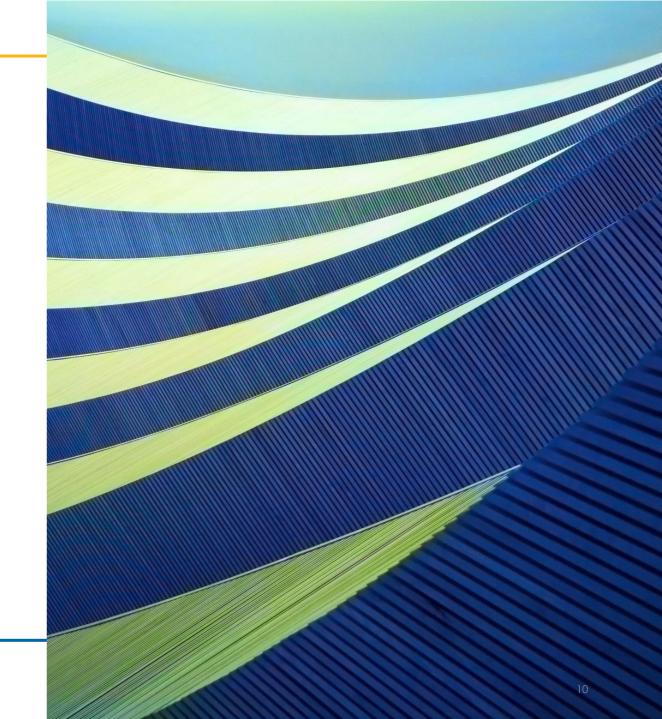

Multi-Factor
Authentication &
Authorization:

Job Filtering and Searching Improvements

ECOS

CalCareers

Anonymous Hiring

Postings after January 1, 2026, will default to anonymous

Redacts PII from hiring manager view

Redacts PII and other identifying information from:

Application (STD 678)

SOQ

Other required documents

ECOS Mass Download of Apps

- Customizable downloading
- Pulls up to all required documents for each selected applicant
- Can be filtered by status
- Reinforces use of hiring manager flags

Multi-Factor Authentication & Auth

- Improves security across platforms
- Industry standard/meets regulatory compliance
- Allows for consideration of removing or archiving old accounts
- Prevents unauthorized access

Job Filtering and Searching

Improves applicant filtering of job postings

Considers candidate knowledge, skills and abilities in results

Reduces the requirement to know state jargon

Roadmap to the Future (2027)

- CalCareer redesign implementation
- Multi-County Job Controls
- Certification list extension to four years
- Reduction of Retake Period for most T&E exams
- Improved hiring manager tools
- Shared MQ determination storage

CalCareers Redesign

- Improves look and feel of CalCareers
- Creates efficiencies in the system
- Reduces duplicative work from departments

Multi-County Job Controls

- Allows multiple counties on one posting
- Merges certification lists to be recruitment based
- Retains priority hiring statuses

Cert list extension and Retake Periods

- Default to four years for T&E eligibilities, unless retaken
- Remove/reduce retake periods for general T&E examinations
- With SPB, amend withhold rules to remove accidental early retakes

Roadmap to the Future (2028 and beyond)

CSPS integration

Mobile modernization

Education and skills matching

Social media and job site sharing

Infrastructure improvements

Certification list improvements

Ways to Stay Connected

- Ad Hoc Forum for Personnel Officers
- Examination Supervisor Forum
- CalHR's HR Policy forum
- Personnel Officer distribution list
- While You Were Working newsletter
- ECOS consultants

Pooled Hiring Event – Sneak Peak

HIRING PILOT

Pooled Hiring Model

1.

2.

3.

4.
