Information About Service Allowances

Please note that the total service for vacation allowance and the total service for retirement purposes will rarely agree. Each is computed under different laws and rules. Under the Public Employees' Retirement System (PERS) Laws and Rules, service is credited on a fiscal year basis (July 1 - June 30). Ten months of full-time service in a fiscal year equals one year of PERS service credit. Furthermore, with more than 400 non-State agencies receiving PERS service credit, not all PERS credit is qualifying under California Code of Regulations 599.739.

When computing total State service for vacation allowance, credit is not given for partial months of service prior to January 1, 1969. Additionally, intermittent service is computed by crediting 1 month for each 160 hours worked. Hours in excess of 160 per month are not credited, because credit cannot exceed actual calendar time.

For example:

Appointed: May 15, 1990

Separated: July 14, 1990

	Hours in May	Hours in June	Hours in July	Total Hours	State Service Credit
Hours Posted	36	204	80	320	See Hours Allowed
Hours Allowed	36	160	80	276	1 month
